

**UNIVERSITY OF SWAZILAND**  
**FACULTY OF EDUCATION**  
**DEPARTMENT OF ADULT EDUCATION**  
**PART-TIME DIPLOMA IN ADULT EDUCATION YEAR I**

**SUPPLEMENTARY EXAMINATION JULY, 2012**

**TITLE OF PAPER : INTRODUCTION TO RESEARCH AND EVALUATION**

**COURSE CODE : DAE 115**

**TIME ALLOWED : TWO (2) HOURS**

- INSTRUCTIONS :**
- 1. ANSWER ALL QUESTIONS FROM SECTION A.**
  - 2. ANSWER ANY THREE (3) QUESTIONS FROM SECTION B.**
  - 3. ALL QUESTIONS IN SECTION B CARRY EQUAL MARKS.**

**THIS PAPER IS NOT TO BE OPENED UNTIL PERMISSION HAS BEEN GRANTED BY THE INVIGILATOR.**

**SECTION A: COMPULSORY**

**INSTRUCTIONS:** Answer all questions. Choose an option that best fits an answer to the following questions/statements.

**QUESTION 1**

Which type of research is used for developing models and theories?

- (a) Applied research
- (b) Causal comparative research
- (c) Basic/fundamental research
- (d) Action research

(2 marks)

**QUESTION 2**

Which of the following is a main reason for conducting research?

- (a) Apply knowledge
- (b) Learn new skills
- (c) Confirm what others have already found
- (d) Contribute to the growth of knowledge

(2 marks)

**QUESTION 3**

A test is reliable when it

- (a) Is easy to pass
- (b) Produces similar results all the time
- (c) Measures the attributes it is supposed to measure
- (d) Can be passed only by gifted pupils

(2 marks)

**QUESTION 4**

The quality of a sample drawn through probability sampling and that drawn through non-probability sampling is the same.

True/False

(2 marks)

**QUESTION 5**

The process of formal research begins with the identification of:

- (a) Research hypotheses
  - (b) A feasible research plan
  - (c) Available participants
  - (d) A research problem
- (2 marks)

**QUESTION 6**

An ordinal scale of measurement:

- (a) Assigns a name to a category
  - (b) Is tied to an absolute zero
  - (c) Incorporates equal units of measurement
  - (d) Communicates greater than/less than relationships
- (2 marks)

**QUESTION 7**

The review of literature can be curtailed when:

- (a) You are no longer encouraging new ideas or information
  - (b) All the work done by top researchers in the area has been reviewed
  - (c) All published work related to a topic has been reviewed
  - (d) Two to four weeks have been devoted to the search
- (2 marks)

**QUESTION 8**

When writing a research proposal, you should assume that the reader

- (a) Will know which data analytic techniques are appropriate for your study without a detailed explanation
- (b) Is an expert in the area you are addressing and will be familiar with common issues, variables, instruments, etc.
- (c) Can discern for him/herself what the importance of the study is.

- (d) Knows nothing about the proposed project, so all the details must be thoroughly explained. (2 marks)

**QUESTION 9**

In historical research, bias:

- a) Generally does not exist to a problematic degree
- b) Is less of a problem than in other forms of research
- c) Is impossible for the researcher to detect
- d) Can be a subject of study in and of itself (2 marks)

**QUESTION 10**

Which of the following is defined as a reasonable guess, or a logical supposition, for explaining the phenomenon under investigation?

- a) Theory
- b) Inference
- c) Hypothesis
- d) Interpretation (2 marks)

**SECTION B: ANSWER ANY THREE (3) QUESTIONS**

**QUESTION 11**

- a) What are the reasons for using samples instead of whole populations? (10 marks)
- b) The target population for your study is 3 000 and the sample is 90. Using the table of random numbers provided, choose the first ten (10) members of the sample. Please indicate the row and column (co-ordinate) from where you start reading your numbers. (10 marks)

**QUESTION 12**

Knowing when to apply a specific evaluation model is important. Indicate the evaluation model you would use for the following situations and explain why.

- a) You are interested in finding out the extent to which project/programme objectives were achieved.
- b) You are interested in comparing your programme's actual performance with a particular standard of performance set at the outset.
- c) You want to see if the programming is working according to plan
- d) You are concerned about identifying and measuring all of the results/outcomes of the programme. (20 marks)

**QUESTION 13**

Discuss the advantages and disadvantages of traditional (conventional) research over participatory research. (20 marks)

**QUESTION 14**

Write notes on the following evaluation models:

- a) Adversary evaluation
- b) Discrepancy evaluation
- c) Formative evaluation (20 marks)
