QUESTION 1

There seems to be a problem regarding the holistic promotion of normal psychological development among school going children in Swaziland. This is due to the fact that mental health professionals are not deployed in schools when employed. Therefore, the normal psychological growth and development of school going children has been grossly compromised. As a result children are being disturbed and sometimes destroyed by these problems in schools. Discuss three solutions that can be used to minimise or totally eradicate this situation. Label these solutions (a), (b) and (c).

- 1.1 Solution a (10 marks)
- 1.2 Solution b (10 marks).
- 1.3 Solution c (5 marks).
